Principal’s Message

AWS focus in the month of February remains on students learning and achievements. AWS high school students went on a school trip to Japan. The trip has had a huge impact on their lives by expanding their horizons and changing the way they see the world. They all returned with a much larger and in-depth understanding of the world and its many cultures. During their experience there, they were able to grow as individuals and received a global education that is more increasingly important in the connected world of today. Most importantly they shared this experience with their fellow students in the school assembly.

Preschool students had their sports day where they participated in many sports activities and had its competition gala where students were involved in reading, writing and storytelling activities. As part of learning colours series, preschool celebrated character and Orange Day.

Our primary students participated in a COED outdoors basketball competition at Riffa Views School. The importance in the sports competitiveness gave our students the chance of developing the necessary skills required to collaborate and build team spirit. Primary English Week was another exciting activity that lasted for five days. Primary students were interactively involved in many in-class reading and writing activities. They also participated in the spelling bee competitions, both inside and outside the school, where they practised and improved their vocabulary, spelling and memory skills. The winners were awarded in the morning assembly. Our students also enjoyed their annual Art Exhibition in the multipurpose hall, featuring their beautiful artwork and creativity. Many field trips were arranged to Al Areen park which linked their curriculum to exploration of nature and everything surrounding it.

The entire school school community celebrated its 100th days of school which was more than just a milestone of noting. It was the perfect time to have fun with the number 100. Students throughout AWS were involved in activities and lessons in this theme to provide opportunities for them to practise math and sharpen their observational skills.

February was also when teachers began to gather mid-year benchmarking data. This information is used to determine rates of progress for students in order to further adjust instructional groups and provide more targeted interventions for students based on their needs.

Vice Principal’s Letter

Dear AWS Community,

AWS Faculty, Staff and student would like to give a BIG THANK YOU to all our AWS families who came out in support of the school on the Annual Carnival Day held on Saturday, February 27! We had an amazing day of fun and raised money to help support an improved school library.

AWS Community has had a very Busy February and we look toward an even busier March! We will kick off the month by having AWS ANNUAL BOOK FAIR which will take place from Monday 7-10 March. This will allow students to buy books to add to their at home library. It has been shown that students who read for enjoyment and relaxation have higher marks in school so let’s make those at home libraries GREAT! During the month of March students will dazzle us with their Math skills during the AWS Math week. It should also be noted that school is closed per the annual calendar on Sunday, March 27,2016.

We hope all enjoy March full of activities that will enhance the learning and make Al Wisam School a FUN place to be!
100 DAY CELEBRATION 2015-2016

Al Wisam School is celebrated 100th day of school on Sunday, 21 February 2016. It is our tradition to celebrate it in grand style. To celebrate this special day teachers have many hands-on activities planned for the students to engage them on this special day.

AIESEC IN AWS

AIESEC in Bahrain is an international non-governmental, nonpolitical, not for profit and independent organization, founded in 1948 run by the students and recent graduates. AIESEC aims to connect young people all around the world by providing a platform for them to explore and develop their leadership potential to have a positive impact on society. This year five educational volunteers from AIESEC attending ALWISAM school as teacher aides ON FEBRUARY/MARCH 2016) for middle and high school classes.

Spelling Bee competition

The competition was held on 22nd, 23rd, 24th and 25th of February. ALWISAM School Participated along with five students of primary and middle school (Rawan /Adnan /Sara /Noor /Amatullah) at Alia School.
JAPAN TRIP

"This year 10 students from grade 11 traveled to the bustling city of Tokyo in Japan. Students were presented with opportunities to learn about the Japanese culture, visit monumental locations and meet with influential people in the city. Over the course of the 10 day trip students visited major religious shrines, the Japanese Parliament, art and science museums, one of the main zoos in the city and the exciting Disney Sea in Tokyo. In addition to this students were given the opportunity to experience life at a Japanese high school. They were enlightened by the differences and similarities that were apparent at the school. Our students proved to be great ambassadors for Al-Wisam School as well as for Bahrain."
March Calendar

- 6: Reading Week / World Book Day - Book Fair (All Levels)
- 10: Funny Hat Day (All School)
- 13: Board Meeting
- 14: Deadline for MSA report submission
